Skills

Programming Languages:

Python, Java, C, Ruby, SQL,

C++, HTML, CSS, Javascript

Teamwork: Communication,

Collaboration, Leadership

Volunteering

Hacker Refactor Club

Treasurer · Sept. 2024 to Current

- Managed the budget and finances for the computer science club, overseeing and tracking expenses to support member activities.

Projects

Music AI · Sept. 2024 to Current

- A data representation for loading, storing and manipulating symbolic music notation, using machine learning and artificial intelligence algorithms.

Bayes Network · May 2024 to June 2024

- Built a Naive Bayesian Network using Neapolitan's probability propagation algorithm to model relationships and infer posterior probabilities, showcasing applications in decision-making and predictive analysis.

AI Agent for Othello · May 2024 to June 2024

- Developed an AI agent that plays Othello using the minimax algorithm to determine optimal moves.

Shortest Path with A* · Mar. 2024 to Apr. 2024

- Implemented multiple search algorithms to determine the shortest path between cities using command-line input and map file parsing.

Employment

Oregon State University – Cascades

Computer Science Tutor · Sept. 2023 to Current

- Worked with students in person and remotely to help them grasp key computer science concepts, like data structures and algorithms.
- Focused on building a supportive atmosphere that encouraged students to engage with the material.

Oregon Army National Guard

Healthcare Sergeant · Oct. 2016 to Current

- Led and mentored a team of five soldiers as a small group during deployment to Eastern Europe; developed their skills and coordinated clinical rotations, ensuring the training and development of 24 soldiers.
- Developed lower enlisted soldiers, guiding their execution of mission-critical tasks, as well as soldier development and leadership skills in the Army.

Starbucks Coffee Company

Shift Supervisor · Nov. 2022 to Current

- Streamlined barista workflows, and ensured adherence to protocols for money exchange and food safety practices. Optimized store workflow, resulting in a 10% increase in revenue through faster drive-thru times.

St. Charles Health System

Emergency Technician · Oct. 2018 to Aug. 2021

- Provided basic life support care for over 1000 patients, and saved over 20 lives due to CPR training.
- Managed patient overflow sections, requiring on-the-spot decisions to triage patients and provide immediate care where necessary.

Certifications and Awards

Oregon Army National Guard · July. 2017 to Current

- Granted and currently holding an active secret security clearance.

Oregon Army National Guard · Nov. 2022

- Awarded NATO Overseas Service Ribbon in support of Operation Enhanced Forward Presence
